| <b>Company's Physical address</b>    | 16 King Street, Southernwood, East London, 5201 |

## **SECTION B: INTERNSHIP QUARTER OVERVIEW**

### **Introduction**

All our interns seem to be working well considering this their first work experience. They have shown great interest and enthusiasm, and the response we get from them and their mentors show that they are getting the required experience. Nywwee NyweeeH!!

### **Project Implementation Methodology**

Through the use of Scrum project management methodology, learners complete detailed description on how everything will be done, what they have done, what they are planning to do on their projects, and their obstacles. We have chosen this methodology because the interns will work independently and also in teams to provide to them the best outcome for allocated projects. This will help them know the best solutions needed for the problems presented to them.

### **Strategic Plan**

To have a sustainable internship programs, the learners are given tasks or project that will give them the required experience and to enhance their ICT/Marketing skills. These tasks are rotated so all interns can have the knowledge required at the end of the program. Each intern will be given a chance to meet or work with our clients in order to assist them and provide live environment experience in dealing with real time issues.

### **Work Placement**

Interns are placed at partner companies where they are given individual and group projects. As Border ICT and Cabling Service we follow up on how they are progressing, and also assist with any issues that might require our intervention when problems arise which might cause setbacks on their work. Every Fridays all our interns are required to submit full report detailing all the tasks completed, including problems encountered. They are also required to submit monthly assessments.

## SECTION C: LESSON PLAN TIME SCHEDULE

Activities which are undertaken for **workplace** learning; when and how these were done in this quarter.

| Date<br>[name]                 | Activity                               | Learning Outcome   | Mentor / Coach | Department     | Action Required                        | Due Date   |
